

Office of Director of Public Instructions (C) Punjab, S.A.S Nagar  
(College Education Branch)

To,

Principals

Government Colleges

Govt. Aided Private Colleges

Memo No. College Edu. (1)/spl-012

Dated, S.A.S. Nagar 1/05/2020

Subject: To create all necessary facilities for proper sanitization in wake of Corona Endemics

Please refer to above subject. You are all well aware that Corona Virus is fast spreading throughout the world. The lockdown period will not continue for long and sooner or later it has to be removed. As per the Exit Strategy for COVID-19 Lockdown restrictions proposed by Government of Punjab all the institutions are required to take all precautions and preventive measures to check the spread of Corona.

In light of the above Secretary Higher Education has directed that all colleges be instructed to ensure that they have adequate number of Infra Red Temperature Scanners/monitors as well as proper facilities of sanitization installed near the entry points and at all such places within the campus where there is likely hood of greater footfall. No person should be allowed to enter the institution premises without temperature monitoring and proper sanitization. The institutions will also ensure that all wear masks and should have a good stock of the same to be made available in case of need. A proper entry must be made about each and every individual including staff who enters the premises every day. The Institutional Heads will ensure that social distancing norms are adhered to in their institutions.

You are also directed to send the compliance report at highereducationcovid19@gmail.com by 5/5/2020.
